Exercise 2:

1. The new software will significantly improve our network security.
2. I won't be able to access the database from home.
3. Will artificial intelligence change how we interact with technology?
4. The company will invest more in cloud computing next year.
5. We won't finish migrating the data by Friday.

Exercise 3:

1. B
2. A
3. B

Will - Technology

The exercises were generated following the CEFR descriptors below:

- Has a sufficient range of language to be able to give clear descriptions, express viewpoints and develop arguments without much conspicuous searching for words/signs, using some complex sentence forms to do so.
- Good grammatical control; occasional “slips” or non-systematic errors and minor flaws in sentence structure may still occur, but they are rare and can often be corrected in retrospect.
- Can understand and use the main technical terminology of their field, when discussing their area of specialisation with other specialists.
- Has a good range of vocabulary for matters connected to their field and most general topics.
- Can produce appropriate collocations of many words/signs in most contexts fairly systematically.
